WHY AGE RESTRICTION MATTERS ON SOCIAL MEDIA

A Helpful Infographic for Parents
www.myhouseofzing.ca

It's Not OK to Lie About Age

All social platforms have age restrictions so if your child has an account under that age, they had to enter a fake birthdate. Would you be okay with someone selling your underage child alcohol or cigarettes? Is that a precedent you're willing to set?

Marketing & Privacy

The Children's Online Privacy Protection Act (COPPA) protects children under 13 from having their personal information shared by 3rd party advertisers. This can include location tracking and a user's online behaviour.*

Effects on the Brain

Social interactions - such as receiving likes - releases a chemical in the brain called Dopamine, which is associated with addictions such as gambling, drugs and sex. That's not to say that everyone will become addicted, but why risk it?*

Impact on Happiness

Studies have shown that kids who spend a significant amount of time a day on social media are more likely to suffer depression and are at a higher risk for suicide. Kids on social are more isolated than those who spend time elsewhere**

Overall Maturity

Children cannot be expected to make the same decisions as an adult, no matter how mature they seem. They need to learn the difference between privacy and safety, understand how words affect others, and not be susceptible to risky activities that seek affirmation. Experience comes with age.

AGE RESTRICTIONS on PLATFORM

TIKTOK 13 yrs old	INSTAGRAM 13 yrs old	SNAPCHAT 13 yrs old	YOUTUBE 13 yrs old	FACEBOOK 13 yrs old

NOTE: App Ratings refer to how old a person should be to download the app on their device, NOT the age to sign up for an account.

5 Tips to Keep Your Family Safe Online

5 نکته برای حفظ امنیت خانواده خود در اینترنت

Adapted from the eSafety Commissioner's [Parent Resources](#)

1. Start the chat

Get into the habit of talking about online safety as a family, so your child feels comfortable coming to you if they ever need help working out an issue. It's never too early to introduce [good online habits](#) such as respect, empathy, critical thinking, responsible behaviour and resilience. As your child grows older, eSafety's advice about [hard to have conversations](#) will help with some of the tricky topics like sending nudes, online pornography and contact from sexual predators.

به عنوان یک خانواده در مورد ایمنی آنلاین صحبت کنید

2. Create a family technology agreement

Creating a Family Technology Agreement can help you and your kids decide together when and how digital technology will be used at home. As a family, brainstorm easy-to-follow rules and display them where everyone will see them. Your agreement could cover things like: time limits, apps your kids are allowed to use and online behaviour. Families with younger children can [download a template](#) to guide the conversation.

3. Set up parental controls

Parental controls let you monitor and limit what your child sees and does online. It's best to use them in combination with the other online safety strategies listed here. [Taming the technology](#) can help you understand your options. Grab a device and get started with our guides to setting up parental controls on [devices and accounts](#) or in [social media, games and apps](#).

کنترل های والدین را تنظیم کنید

4. Choose games and other apps carefully

Use eSafety's [App checklist for parents](#) to think about the positives and negatives when your child asks to download a new game or other app. The checklist covers things like age ratings, managing privacy settings and reporting abuse in-app. You can also use [The eSafety guide](#) to check and set up safety features with your child.

برنامه های آنلاینی را انتخاب کنید که برای سن مناسب هستند

5. Use digital technology together

Exploring or playing on devices or online with your child can be a positive experience that promotes learning and development. Ask questions, be curious and get involved.
